

WARP

Defining speed

We are an F1 in Schools team based at Saint Olave's Grammar School in Orpington who are going to the **UK National Finals**. This document outlines what **F1 in Schools** is, why **your company** should sponsor us, and the benefits it would receive.

The background is a blurred photograph of a classroom. On the left, there is a poster with the word 'FISION' and 'FASTEST CAR' visible. In the center, a large number '1' is prominent. To the right, another poster mentions 'FASTEST CAR' and 'CLASS'. In the foreground, a white toy car with black wheels and a blue triangle on its side is visible. The text is overlaid on a semi-transparent purple rectangle.

“CHAMPIONS”
RISE TOGETHER, NOT ALONE.

F1 IN SCHOOLS

F1 in Schools is one of the largest STEM competitions in the world, having attracted over **9 million** students since its formation in 2003. There are three classes: **Entry**, **Dev**, and **Pro**. In Entry you can only compete up to *regionals*, in Dev you can compete up to the *national* finals, and in Pro you can compete up to the *world* finals.

The aim of F1 in Schools is to get more students into STEM. Within the competition, we must design and manufacture a car based on strict regulations and optimised with industry-standard CFD and FEA (Ansys). As well as this we need to create an Enterprise and Design & Engineering portfolio, a 10-minute Verbal Presentation, and a Pit Display.

The UK national finals brings together the smartest teams of secondary school students from the *whole* of the **UK**, to compete for the national trophy. Only **13%** of teams that compete at regional finals get this opportunity.

WΔRP has.

THE TEAM

ANEEQ WEERASINGHE

Sponsorship & Marketing Manager
Manager of sponsorship and social medias, as well as the website.

THOMAS HOWCROFT

Finance Manager / Graphics Manager
Manager of resource acquisition for the project. Helps with graphic design.

ABHINAV MALLADI

NEAL YE

Graphics Manager / Engineer
Manager of graphics. Helps with the design and manufacturing of the car.

MICHAEL QU

Portfolio / Marketing
Helps proofread all deliverables and writes the verbal presentation.

TEAM WARP

THE JOURNEY

1 @March 2023 – Entry Regionals

We competed in the London North regionals and won first place. We also got the fastest car award, and best engineered car (for Entry class).

2 @August 2023 – Ansys joins us

Ansys joins us as our first sponsor, giving our engineers access to world class CFD software. This enables us to create more optimised car designs, faster.

3 @October 2023 – Aosom joins us

Aosom becomes our first monetary sponsor, giving us a vital monetary contribution that enabled us to pay for different aspects of the competition.

4 @January 2024 – Dev Regionals

We competed in the London South regionals and won first place, despite the competition being much harder than last year. We also won the Research & Development award and were nominated for the Portfolio and Brand Identity awards (for all classes).

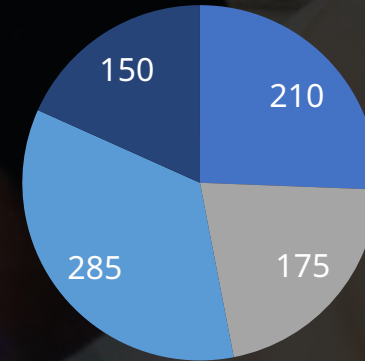

5 @March 2024 – Dev National Finals

Our school has a rich history in F1 in Schools, and last year two other teams from our school won both **Dev** and **Pro** class, making our school the *first* to become double national champions. Now **WΔRP** is looking to continue our and the school's winning streak, with *your* support.

HOW YOU CAN HELP

- Providing us with direct financial and monetary support.
- Providing technology to assist us for our pit display.
- Providing products from your company that we can giveaway to increase engagement.
- Providing us with knowledge related social media management, engineering, or manufacturing.
- Providing us with methods to increase awareness of our brand.
- Providing us with tools that help make us more carbon positive.
- Providing us with travel / accommodation benefits.
- And much more...

BUDGET

- Entry Fee
- Accommodation
- Pit Display Items
- Team Clothing

- Small sized logo on pit display (without company name).
- Dedicated post on Twitter about your sponsorship.

WHY SHOULD YOU PARTNER WITH US

The group have been an inspiration to work with. The passion and dedication of all has shone through, straight from the get-go; this has been evident with every conversation. This passion and dedication is the clear reason why their team has excelled and is why they are in the position they find themselves standing today.

- JOANNE PHILPOTT, AOSOM

JOIN US

We want to win,
Everyone does.
But we can't do it on our own.

So, we invite you to join us on this journey.
Because by supporting WΔRP you aren't just helping us,
You are also empowering the future generation.
